

A Date with Dick Richardson

Monday 3rd November

Renowned Grazing Management Educator

- Are** you keen to improve your grazing management skills?
- Do** you want to reduce spending on chemicals and fertilizer?
- Are** soil health & biodiversity desired outcomes for your farm?
- Is** a lower input system more suited to your budget?
- Do** you want to create resilience in your business?

That's great... but we have to make a profit!

At this November workshop, Dick will show you how you can increase sheep and cattle production by running a lower cost business by:

- Increasing pasture utilization
- Encouraging pasture growth
- Increasing the duration of the green season
- Using grazing tools such as:
 - simple feed budgeting,
 - stocking density and rest,
 - priority grazing & sabbath paddocks
- Knowing when to use fertiliser, herbicides & diesel when to use lower cost ecological tools
- Being in touch with what your paddocks are telling you and reacting early to changing trends

Where:

Address:

Date: 3rd November 2014
